### Price List

#### Premium Grade Vinyl Rolls

(Width 230mm. Length 10m.)

This is our most popular material, as it covers the majority of day-to-day requirements for signs.

Lighthouse vinyl is suitable for indoor and outdoor use. Externally, it is not affected by wind, rain, snow etc. Over time, exposure to the sun's UV light (ultra violet) can affect the pigment in the material. So if you place a sign in a position where it is exposed to direct sunlight, after a period of 4-5 years, there may be a level of 'fading'. By this, we do not mean that the colour in the vinyl will have disappeared, but it will not be exactly the same shade as it was originally.

Once applied, our vinyl can operate in temperatures between -40°C to +70°C.

It is available in a vast array of vibrant colours, hence we are able to produce a comprehensive range of options to cover legislative requirements for Health and Safety, Pipe Marking, COSHH, WRAP etc, for any market in the world. It is also usually possible for us to match corporate colours without the expense of large minimum order quantities.

To recap the basic properties of Lighthouse vinyl:

- Highly durable, so suitable for indoor and outdoor use
- Perfect for general signage and labelling requirements
- Huge range of colours
- High quality adhesive
- Excellent temperature tolerance

Description	Part Number	Price (€)	Description	Part Number	Price (€)
 White	CM5001	49.60 €	 Purple	CM5022	49.60 €

\* Products marked with an asterisk are made to order. Minimum order quantity 4 rolls and multiples thereof. Other special colours can be made to order. Please call us for details.

#### Ultrabond

(Width 230mm. Length 10m.)

If you need the ultimate combination of adhesive strength and longevity, Lighthouse Ultrabond® is the material for you.

This material has a 7 year minimum outdoor durability, coupled with a great temperature tolerance range of -30°C to +80°C. Capable of adhering to even the most difficult surfaces, the high grab adhesive gives a fantastic initial tack and a strong ultimate bond; all in all making it perfect for product marking and industrial applications.

# W.R.A.P. Premium Grade Vinyl Rolls

(Width 230mm. Length 10m.)

WRAP stands for Waste & Resources Action Programme, which is a campaign to encourage people to recycle more often.

Clear signage is the key to maximise effectiveness and participation in any recycling programme. CM-200 customers can comply to the 'Recycle Now' guidelines as we produce all the WRAP compliant vinyl colours and provide all the WRAP symbols and sign templates for use with the Lighthouse for Max software. You can create your own WRAP signs with the symbols, or simply open and cut from a ready made template, which is also editable. Contact us for further details.
