CJ80
Portable Label Printing

*Print your labels in the
warehouse, in the factory,
in the office or even in the field!*

 save time  save money  improve processes

Sourcing appropriate labels can often be time consuming and costly, especially where only small quantities and specific wording is required. This CJ80 not only fulfils this, it enables you to do so in the office, in the factory, in the warehouse and even in the field. The CJ80 connects to your device via Bluetooth providing great flexibility for printing your label requirements anytime and anywhere!

Who needs a CJ80?

There are many applications for this versatile printer. Providing solutions for various markets such as: Logistics, Production, Maintenance, Engineering, Safety and Facilities for producing a variety of labels including:

- Rack Labels
- Bin Identification Labels
- Safety Labels
- Packing Labels
- Plant ID

Weighing in at under 1kg, its compact design gives you the freedom to print labels anywhere. The CJ80 uses clean, odourless thermal technology to print onto the self-adhesive label material which can be applied instantly after printing.

Lighthouse App Software

The Lighthouse Android App enables you to print from your phone or tablet via Bluetooth. The user friendly interface enables you to create label designs incorporating, alphanumeric information, symbols, QR codes, barcodes and sequential data for dynamic labels.

The app includes pre-designed templates which can be edited to your specific requirements so you don't have to create a label from scratch.

Consumables

The premium label range offers durable solutions suitable for outdoor applications. Alternatively when outdoor durability isn't essential, why not use our range of paper labels, ideal for logistic and office solutions.

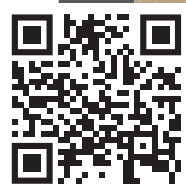

Thermal ribbons are pre loaded into the cassette providing superior performance and enabling swift changeover. Ribbons are available in a range of colours to enhance your label design.

Recycle scheme

To ensure quality with every print, our thermal ribbon cassettes are non-refillable. However, once you have finished ten cassettes, let us know and we'll send you a box so you can return these used cassettes on a pre-paid return service for recycling.*

*Cassette recycling service is currently only available to UK mainland users.

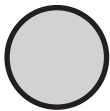

Scan to watch the CJ80 in action!
