CJPro II Industrial Label Printing System

 save time  save money  improve processes

Sourcing appropriate labels can often be time consuming and costly, especially where only small quantities, specifically worded, or exact sized outputs are required. This is where the CJPro II allows you to effect huge cost savings and operational improvements, by producing exactly what you want, when you want it... 24 hours a day!

Who needs a CJPro II?

There are many applications for this versatile printer. Providing solutions for various markets such as, Logistics, Production, Maintenance, Engineering, Safety and Facilities for producing a variety of labels including:

- Rack Labels
- Bin Identification Labels
- Safety Signs
- Instruction Labels
- Packing Labels
- Plant ID
- Pipe Marking

The CJPro II also offers cable management solutions with a range of consumables designed specifically for cable identification. This includes:

- Cable Marking Tags
- Heat Shrink Sleeves
- Self Laminating Cable Wraps

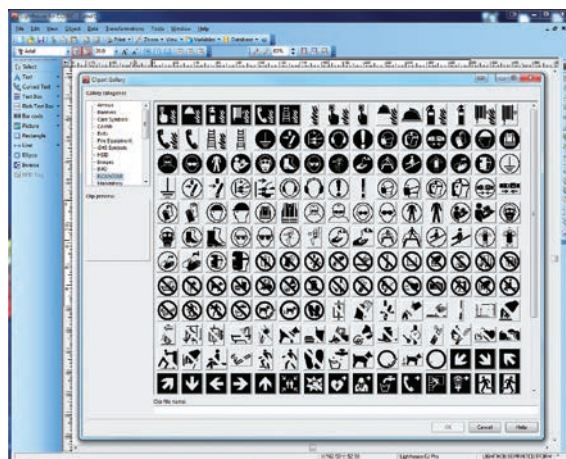

How does the CJPro II work?

The CJPro II uses clean, odourless thermal technology to print onto a range of materials, including continuous vinyl rolls or die cut labels. The built-in cutter unit will ensure continuous labels are cut to the length you require. With a print length of just over 1 metre, large labels and signs can be created.

Included Software

Our innovative Microsoft Certified software enables you to incorporate sequential numbering, information from databases and even barcodes. With a comprehensive clip art gallery containing more than 2,800 symbols, all health and safety needs are taken care of. As well as the built-in symbols, you can easily introduce your own logos, diagrams and schematics.

Consumables

Our consumables have recyclable cardboard cores and packaging, making them both environmentally friendly and cost effective. We have a large range available from stock, and can also produce specialist made-to-order materials such as die cut labels.

A cost effective way of quickly producing rack labels, basic safety signs and pipe markers

? How can we help you to get the most out of your CJPro II?

- We offer on-site training and support
- Support and advice by phone & email
- Updates, technical data, instructional videos, new clipart and the latest drivers, can all be downloaded from our website
