# Premium Grade Vinyl

This is our most popular material, as it covers the majority of day-to-day requirements for signs and labels.

Lighthouse vinyl is suitable for indoor and outdoor use. Externally, it is not affected by wind, rain, snow etc. Over time, exposure to the sun's UV light (ultraviolet) can affect the pigment in the material. So if you place a sign in a position where it is exposed to direct sunlight, after a period of 4-5 years, there may be a level of 'fading'. By this, we do not mean that the colour in the vinyl will have disappeared, but it will not be exactly the same shade as it was originally.

It is available in an array of vibrant colours, hence we are able to produce a comprehensive range of options to cover legislative requirements for Health and Safety, Pipe Marking etc. for any market in the world. It is also usually possible for us to match corporate colours without the expense of large minimum order quantities.

## Ultrabond Vinyl

If you need the ultimate combination of adhesive strength and longevity, Lighthouse Ultrabond® is the material for you.

This material has a 7 year minimum outdoor durability, coupled with a great temperature tolerance range of -30°C to +80°C. Capable of adhering to even the most difficult surfaces, the high grab adhesive gives a fantastic initial tack and a strong ultimate bond; all in all making it perfect for product marking and industrial applications.

### Features of Lighthouse Ultrabond vinyl:

- Highly durable, suitable for indoor and outdoor use
- Service temperature -30°C to +80°C
- High initial tack and strong ultimate bond
- Ideal for industrial applications

This range of premium ribbons offer vibrant colour print and are outdoor durable, as well as being highly scratch, rub and oil resistant.

# Speciality Materials

**CJ1304**  
Reflective Silver

100mm x 10m Roll  
**£80.00**

- Engineering grade
- Excellent visibility, both day and night
- Permanent adhesive
- Service temperature -20°C to + 90°C

**CJ1404**  
Reflective Yellow

100mm x 10m Roll  
**£80.00**

These are suitable for indoor and outdoor applications and reflect light back, making them highly visible. They are used for warning, traffic and information signs, as well as chevrons, particularly on industrial sites.

**CJ1504**  
Photoluminescent

100mm x 10m Roll  
**£90.00**

An indoor material that soaks up light and will then emit a green glow if there is a lighting failure. It is ideal for producing signs and labels showing emergency call points, safe exit routes and stairways.

**CJ0802DES**  
Silver Destructible

50mm x 25m Roll  
**£90.00**

This face has an 'egg-shell' construction means when removal is attempted, the label will fragment into tiny pieces. Applications include asset and security labels such as 'Property of...' labels, etc.

## Freezer Adhesive

- Low application temperature -25°C
- Service temperature -50°C to +70°C
- Ideal for cold store rack labels and chilled packaging
- Direct contact with dry & moist non fatty foodstuffs

**70mm Wide**

**CJP2003**  
Freezer Adhesive

25m Roll  
**£67.00**

**50mm Wide**

**CJP2002**  
Freezer Adhesive

25m Roll  
**£50.00**

## Valve Tags & Magnetic Strip

### Valve Tags

650 micron gloss white PVC tags with a 6mm diameter hole for attaching ties (not supplied). Ideal for valve identification.

**VT38X80**

White Plastic Valve Tags (100 Pack) (38mm x 80mm)

**£44.00**

**VT37X115**

White Plastic Valve Tags (100 Pack) (37mm x 115mm)

**£52.00**

### Magnetic Strip

Apply your label to the magnetic strip to allow frequent repositioning. The white flexible magnetic strip can be cut with ease using scissors or a craft knife.

**MS6X1**

White Magnetic Strips (6 Pack) 1000mm x 100mm

**£30.00**

Prices effective from 1st October 2022.

All prices exclude VAT and delivery, and are subject to change without prior notice.
